

ECOMADNESS

~Tips~

Recycling Compliance

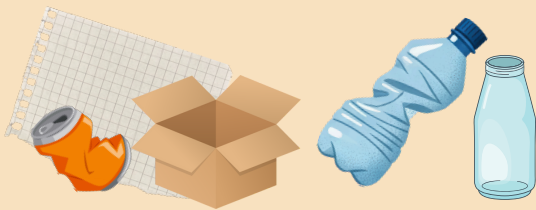

Recycling compliance means that **recycling bins are not contaminated** with non-recyclable items and **recyclable items are not in the trash bins**

Things To Remember:

- Keep food & liquid out of your recycling
- No loose plastic bags no bagged recyclables
- Flatten boxes, but don't crush cans
- If you can reuse, before recycling

Recyclable

Empty/rinsed bottles, cans, and jars, cardboard boxes, office paper, pizza boxes

Not recyclable

Any trash bags, plastic bags, food wrappers, plastic silverware and straws, dryer sheets
